Software Patents Worldwide

EDITED BY GREGORY A. STOBBS

Only One Resource Provides Reliable Guidance on Obtaining and Enforcing Software Patents in the World's Key Markets.

Available online at www.KluwerIPLaw.com
Given the explosive increase – and increasing importance – of software patents worldwide, patent attorneys and counsel representing clients involved with software must have access to reliable information on the patent processes in the world’s key markets.

**Software Patents Worldwide** is the only resource providing expert insights and how-to guidance on drafting patent claims around the world, which means you can cut research time, protect your clients’ interests, practice with confidence and avoid errors – even in unfamiliar territory.

**NEW! Country-by-Country Coverage of Software Patent Law in a Single Reference**

A brand new resource, Software Patents Worldwide covers both mature and developing systems, enabling you to ask the right questions in each circumstance. This one-of-a-kind resource will help you answer key questions such as:

- What is the proper procedure for obtaining a software patent?
- How do we enforce our patents?
- Is it even worth obtaining a patent in this jurisdiction?
- How do the requirements of one jurisdiction compare to those of another?
- How is the country’s Patent Act interpreted by local courts?
- And more!

And Software Patents Worldwide also provides cross-jurisdictional insights, including:

- How to draft the software patent so it will be accepted in most countries/regions
- How to draft the software patent so it will be enforceable in key countries/regions
- Strategies on selecting which countries/regions in which to file

“Treats all major countries worldwide in a most comprehensive and competent manner. Amazing – this is what every software patent practitioner has been waiting for!”

Markus Hössle, German and European Patent Attorney and Partner at HÖSSLE KUDLEK & PARTNER in Stuttgart, Germany
